

Adam Halpern Bio

I have worked in a variety of settings ranging from the traditional sideline AT to owning a business. Such experiences provided a unique viewpoint that I want to incorporate into the Associations' strategic plan for the members.

As the RMATA Treasurer, I'm responsible for maintaining the budget for the Association, depositing funds into Association accounts, writing checks for the Association, keeping current financial records of Association income/spending, maintaining contact with the financial advisor of the Association and advising the President and Board on the financial status of the Association.

I volunteer because it's a great way to give back to the profession I'm passionate about. I feel ATs can make a huge difference in the overall landscape of health care and volunteering provides a unique opportunity to make an impact for the members.

Members can contact me with any questions regarding their interest in the Association's financials. There is an answer to how and why the Board allocates funds and we welcome interest from the members.
